

New MRVC coach tender brings cheer

Diwali celebrations kicked off early for railway coach manufacturing players as the Mumbai Railway Vikas Corporation (MRVC) has floated tenders for procurement of 2,856 coaches for air-conditioned (AC) electric multiple unit (EMU) local trains called 'Vande Metro', for the Mumbai suburban rail network. As per media reports, this opportunity is worth ~INR210bn ([Link](#)).

After a lull of almost two years, activity has picked up in the coach manufacturing space in India. Multiple metro rail coach tenders have been awarded in the last six months; the new tender shall keep order inflows healthy for coach manufacturers in India. We remain positive on Titagarh Rail (BUY) in this space.

Opportunities rolling in for coach manufacturers

The Mumbai Railway Vikas Corporation (MRVC) recently floated tenders for procurement of 2,856 coaches in configuration of 12/15/18-Car Air-Conditioned Vande Metro (suburban) broad gauge trains with comprehensive maintenance for 35 years including setting up of two new maintenance depots under MUTP-III and MUTP-3A. According to a media report, this opportunity is worth ~INR210bn ([Link](#)).

Work division, scope and completion timelines: The authority may award the entire project (2,856 coaches) to a single bidder (in which case, delivery is to be completed within 7.5 years from the 'Appointed Date') or may split it among two selected bidders — 1,715 coaches to L1 bidder and 1,141 coaches to L2 bidder (with the L2 bidder required to match the L1 bidder quote) in which case delivery would have to be completed by each player in 6.5 years.

The first prototype Vande Metro Rake (12-Car) is to be delivered within 24 months and the second prototype within 26 months from the 'Appointed Date'.

The winning bidder will get 42 months from the 'Appointed Date' or 30 months from the handover of land, whichever is later, for setting up new maintenance depots.

Make in India: The technology partner(s) shall manufacture the Vande Metro rakes at its/their own premises in India. While we await more clarity on the same, we believe this has the potential to largely restrict the competition to the three private sector manufacturers with existing coach production facility in India – Alstom, BEML and Titagarh Rail.

Our view: After a lull of almost two years, activity is picking up in the coach manufacturing space in India. Tenders have been awarded for multiple metro rail projects in the last six months and with this large tender of ~INR210bn underway, we believe order inflow should remain strong for the three existing coach manufacturers in India. Even assuming that the MRVC tender gets split and is awarded to two players, the third player can bid for future Vande Bharat/metro rail coach projects to shore up its order book without facing much competition. We remain positive on Titagarh Rail (BUY) in this space.
