#### PRICE PERFORMANCE

## **GST** cuts to support growth

Metro reported revenue/EBITDA/PAT growth of 11%/10%/-4%. Revenue per sqft remained stable YoY, aided by an early festive season and extended EOSS. Margins contracted slightly due to higher ad spends while lower PAT was driven by increased depreciation and interest from accelerated store expansion. The company added its second-highest number of stores ever and started its Footlocker expansion journey with four new stores.

We are tweaking revenue/EBITDA/PAT numbers for FY26E by -1.4%/ +0.8%/-4.0% and for FY27E by -0.1%/+0.4%/-1.7%. Rolling forward to H1FY28, our revised TP comes in at INR1,208 (INR1,187 earlier); maintain 'HOLD'.

#### Early festive season drives growth

Metro posted 11% YoY growth in consolidated revenue in Q2FY26 (Q2FY25: 5%) partially driven by an early festive season and end of summer season sales. Sales per sg. ft. was flat this quarter to INR4,300; this has been a declining trend for the past nine quarters. The share of revenue from the premium (>INR 3,000) category has improved to 54% in Q2FY26 from 53% in Q2FY25. The share of own brands was down 71% (-1% YoY). E-commerce sales surged 42%, contributing to 13.9% of overall revenue. Gross margins contracted 22bp YoY. Employee expenses increased 11% YoY and other expenses expanded by 14% YoY this quarter. EBITDA margins fell 23bp this quarter due to higher marketing spend on brand building and positioning. Management reaffirmed long-term targets of 15% revenue CAGR, mid-teen PAT margins, and EBITDA margins exceeding 30%.

#### Store addition picks up pace; GST rate cuts boosts affordability

Metro added 42 stores and closed four this quarter, marking its second-highest net addition historically. Store additions were Metro (8), Mochi (10), Crocs (1), Walkway (10), Fitflop (1), Footlocker (4) and New Era (4), respectively. Fila expansion is planned from H2FY26 with local manufacturing initiated due to BIS concerns. Walkway saw record additions, reflecting renewed focus on Tier 2 and below markets. The company also opened its first New Era store in Lucknow and the balance expansion happened through kiosk format. GST cuts have boosted affordability, covering ~90% of Walkway and ~40% of Metro/Mochi assortments. Clarks products are present in 200 Metro and Mochi stores, and are targeted to reach 300 by Q3FY26. Footlocker is performing in line with management's expectations despite supply chain constraints, which are likely to ease and support merchandise improvement over the next two-three quarters.

# **Q2FY26 conference call: Key takeaways**

#### **Highlights**

- Metro Brands reported 12% standalone and 11% consolidated revenue growth YoY despite prolonged monsoons and customer deferral of purchases ahead of GST rate cuts.
- E-commerce sales surged 39% YoY, contributing 14% of total revenue.
- Rentals have risen slightly (~13–15%), but EBITDA trends remain aligned with top-line growth.
- GST cuts and broader policy tailwinds (monetary easing, income tax reductions) are likely to sustain consumption momentum.
- Inventory rose by INR1,500 mn in H1FY26, largely due to new store additions and festive stocking; capex were INR600mn.
- Marketing spend increased by ~100bp YoY to support brand visibility across Metro, Mochi and Walkway.
- Management reiterated their focus on brand-led awareness rather than discounting.
- GST rate cuts (11% reduction for footwear INR1,000–2,500, and 6% for below INR1,000) have boosted affordability, covering ~90% of Walkway and ~40% of Metro/Mochi assortments.
  - This positively affects almost 90% of the footwear under walkway format and ~40% of the Metro, Mochi footwear business.

#### **Stores**

- The company opened 42 stores and closed four, leading to a net addition of 38 stores during the quarter.
- Additions included four Footlocker stores and ten Walkway outlets, the latter being the highest quarterly addition for that format.
- The company views cannibalisation as strategically healthy as it expands total catchment sales and strengthens local dominance.
- Capex remains moderate at INR500–600 mn per Metro/Mochi store; higher for Footlocker given store size.

#### **Brand updates**

- <u>Fila</u>: Repositioning efforts are ongoing, with products now present across 100plus Metro and Mochi stores. The first exclusive Fila store is likely to reopen by
  end of this year. BIS certification issues continue to limit store rollout, but are
  likely to be resolved early next year.
- <u>Clarks</u>: Currently available across 200 Metro and Mochi stores; expansion to 300 stores planned in Q3. Initial customer response has been encouraging, and full supply chain stabilisation is likely within two—three quarters.
- <u>Footlocker</u>: Early performance remains encouraging with throughput on a par with company average despite larger store sizes and BIS-related supply

- challenges. Gross margins are lower given third-party brand mix, but management expects RoCE of 20–25% over the medium term.
- <u>Walkway:</u> Strategic repositioning toward Tier II towns and value-conscious customers. Management targets RoCE of 20–30% over three–five years, acknowledging structurally lower margins versus Metro/Mochi.
- Clarks and Fila are being reintroduced and repositioned while Crocs continues steady double-digit growth with 10% annual network expansion potential.

#### Outlook

- Demand outlook for H2FY26 remains positive with normalised festive/wedding season and GST-led tailwinds.
- Store expansion to continue across all formats Metro, Mochi, Crocs, Walkway, and emerging banners (Fila, Clarks and Footlocker).
- Focus remains on operational discipline, profitable store expansion and optimising marketing Rol.

#### **Company Description**

Metro Brands is one of the largest Indian footwear speciality retailers and serves as a one-stop-shop for all footwear needs for the whole family (men, women and children) for every occasion. It started with a single shop in 1955 and currently has expanded to 952 stores.

Metro retails footwear via its MBO formats Metro, Mochi, Walkway and FootLocker. In addition, it also runs EBO's for brands like Crocs, New Era, Fila and Fitflop.

At its MBOs, Metro sells under its own brands (Metro, Mochi, Walkway, DaVinchi, J. Fontini, etc) as well as certain third-party brands (Crocs, Skechers, Clarks, Florsheim, Fitflop etc). It also offers accessories such as belts, bags, socks, masks, wallets and shoe care products.

#### **Investment Rationale**

#### Robust store economics driven by assortment and efficiency

Metro has managed to build a robust store format for its core brands: Metro and Mochi. In fact, Metro's store RoCE is among the highest across other category retailers too. We believe the key building blocks for Metro's store economics are: i) revenue productivity—a function of wide assortment and limited competition; and ii) optimum inventory at stores. The number of brands that the company offers at its MBO formats, and overall, is much higher than peers. Metro, via its multiple owned brands, acts as a single shop to meet majority footwear needs of consumers across genders, categories and price points.

#### Newer initiatives give visibility of long runway

The recent acquisition of Cravatex and the tie-up with FootLocker and New Era gives Metro an entry into Sports and Athleisure segment. India's Sports and Athleisure market is valued at INR195bn as of FY2020. India's demographics and shift towards premiumisation work out in favour for Metro as it has just completed its portfolio with entry in Sports and Athleisure segment. Industry tailwinds such as shifting consumer preferences and government policy push via BIS implication will enable Metro to post robust growth

#### **Key Risks**

- Outsourced manufacturing
- · Outstanding criminal litigation against promoter
- Competition from e-commerce players
- Inflation and slowdown in discretionary spending
- Scale-up of Cravatex Brands
- Design process is semi-institutionalised
